Table of Contents

I	Executive Summary	4
II	Market Review	
II.1	Overview of Resale Market Activity	9
II.2	Size of Resale Market	11
II.3	Sources of Demand for Equipment	15
II.4	Resale Prices in 2012-2013	16
II.5	Background to the Fall in Dry-Freight-Container Resale Prices in 2012-2013	20
III	Market Outlook	
III.1	Supply of Equipment to the Resale Market	23
III.2	Demand for Resale Equipment	25
III.3	Resale Container Prices	26
III.4	Outlook	29
IV	Development of Resale Market	
IV.1	Growth of Resale Market	31
IV.2	Useful Life of Containers in Secondary Market	34
V	Resale Market Price Drivers	
V.1	Background to Historical Price Evolution	37
V.2	Factors affecting Resale Container Prices	42
VI	Secondary Market Uses for Containers	
VI.1	Suitability of Containers for Secondary Market Uses	47
VI.2	Secondary Market Applications	49
VII	Residual Value Analysis	
VII.1	Residual Value Analysis of 20ft Dry-Freight Container	53
VII.2	Residual Value Analysis of Dry-Freight, Reefer and Tank Containers	59
VII.3	Loan-to-Value (LTV) Analysis	61
Appendix I	Secondary Market Structure	67
Appendix II	Segmentation of Marine Container Fleet by Equipment Type	71
Appendix III	Flow of Equipment from Primary to Secondary Market	72
Appendix IV	Marine Fleet Owners' Selling Criteria	74
Appendix V	Resale Condition Categories and Prices	76
Appendix VI	Secondary Market Applications	78
Appendix VII	Scrapped Containers	82
Appendix VIII	Residual Value Curves For 20ft Standard Dry-Freight Containers, 1983-2013	87
Appendix IX	Container Design and Attributes	89
Appendix X	Data Sources	91

List of Charts

Chart 1	Resale market activity, 2013	9
Chart 2	Container volumes entering the resale market, 2002-2013	11
Chart 3	Estimated size of secondary container fleet, 1992-2013	13
Chart 4	Average resale price ranges for main container types, 2013	16
Chart 5	Average global resale prices for 20ft standard, 40ft standard and 40ft high-cube dry-freight and 20ft standard and 40ft high-cube reefer containers, 2008-2013	17
Chart 6	Average regional resale prices for 12-15-year-old dry-freight containers in wind-and-watertight condition, 2009-13	18
Chart 7	2013 dry-freight, reefer and tank container resale prices in US dollars and as a percentage of their original equipment cost (OEC)	19
Chart 8	20ft dry-freight comparison of yearly average resale price with 20-year-average resale price, 2004-2013	20
Chart 9	Resale price of 12-15-year-old 20ft dry-freight container in wind-and-watertight condition (actual year-end prices 2001-2013, projected year-end prices 2014-2016)	28
Chart 10	20ft dry-freight container resale price trend, 1991-2013	37
Chart 11	Month-by-month comparison of 12-15-year-old 20ft dry-freight container European resale price with (a) new price of same type of container (b) price of Chinese hot-rolled coil steel and (c) price of scrap steel, 2005-2013	39
Chart 12	Comparison of new 20ft dry-freight container price with global average resale price for 12-15-year-old 20ft dry-freight container, 1991-2013	40
Chart 13	Comparison of new 20ft dry-freight container price index with resale price index for 12-15-year-old 20ft dry-freight container, 1991-2013	41
Chart 14	Description of container sale categories	44
Chart 15	Residual value curves of lowest, highest and average resale prices, 1983-2013	54
Chart 16	1983-2013 average residual value curve compared with residual value curves of 1989-built and 2000-built containers	56
Chart 17	Resale price of 12-15-year-old 20ft dry-freight container as percentage of new price, 1991-2013	58
Chart 18	Residual value curves for 20ft standard, 40ft standard and 40ft high-cube dry-freight containers, 40ft high-cube reefer containers, and 20ft T11 tank containers, 2013	59
Chart 19	Resale price of 12-15-year-old dry-freight, 10-12-year-old reefer and 15 year-old tank containers as percentage of their respective new prices, 2008-2013	60
Chart 20	Loan-to-value analysis assumptions for 20ft standard dry-freight, 40ft high-cube reefer and 20ft T11 tank container, 2013	62
Chart 21	Loan-to-value analysis for 20ft standard dry-freight container, 2013-2014	63
Chart 22	Loan-to-value analysis for 40ft high-cube reefer container, 2013-2014	64
Chart 23	Loan-to-value analysis for 20ft T11 tank container, 2013-2014	65
Chart 24	Resale market structure	67

Chart 25	Segmentation of marine container fleet by equipment type, 2013-2014	71
Chart 26	Segmentation of containers between primary and secondary fleet over 30-year asset life cycle	73
Chart 27	12-15-year-old 20ft dry-freight container resale price by condition category, 2013	76
Chart 28	12-15-year-old 20ft dry-freight container resale price by condition category as percentage of new container price, 2013	77
Chart 29	Estimated percentage of standard containers scrapped from marine fleets	83
Chart 30	World scrap steel price, 2005-2013	84
Chart 31	Container parts	86
Chart 32	Residual value curves for 20ft standard dry-freight containers built in each year between 1983-2013	87
Chart 33	Minimum, maximum and average residual values for 20ft standard dry-freight containers, 1983-2013	88
Chart 34	Container design and attributes	90

Introduction

This report examines the market in which ISO intermodal freight containers are retired from the marine fleets of shipping lines and lessors, bought by traders, and sold to secondary-market fleet managers and end users.

The report covers the following aspects of the market:

- **Current and historical resale market prices for dry-freight, reefer and tank containers.**
- **Trading activity in 2013.**
- **Market outlook for 2014.**
- **Volumes of containers being bought and sold on an annual basis, and the quantity of containers now in the secondary fleet.**
- **Sources of supply and demand.**
- **Analysis of price drivers.**
- **The structure of the market and the identity of the main suppliers, traders and end users.**
- **The growth of the market since the 1980s.**
- **Resale prices and residual values.**
